PROFESSIONAL SUMMARY

AI/ML Engineer experienced in designing and building **production-grade AI solutions**, including end-to-end machine learning pipelines, LLM-powered systems, and intelligent agentic workflows. Skilled in Python, deep learning, NLP, and modern LLM frameworks, with hands-on expertise in **CrewAI**, and multi-agent automation. Proficient in architecting and deploying **RESTful APIs** using Python/FastAPI, integrating AI models into scalable backend services, and delivering reliable, real-world applications.

PROFESSIONAL EXPERIENCE

AI/ML Intern

Aug 2025 - April 2026

Dhanush Softech

- Engineered a clinical notes and prescription generation system from doctor-patient conversation audio using **Whisper Large V3** and **LLaMA 3.3 70B Versatile**, producing accurate SOAP notes and structured medical outputs in real time.
- Implemented a real-time **auto-form population system** using the **OpenAI GPT-4 Realtime API**, enabling fields such as patient details and medical history to be automatically filled **as the user speaks**, ensuring seamless, hands-free data entry.
- Developed a natural-language **database retrieval chatbot** powered by **GPT-4o mini**, **FAISS**, and **BGE-Large embeddings**, enabling users to ask conversational queries and receive contextually precise answers extracted directly from the database.
- Designed and deployed **FastAPI-based** microservices for multiple AI modules (SOAP generation, registration, NLP data processing), ensuring scalable and modular backend architecture.

PROJECTS

Personalized Customer Support ChatBot | [GitHub](#) | TechStack: LLM, LangChain, ChromaDB, MySQL, HuggingFace

- Developed an AI-powered e-commerce chatbot using **LangChain** and **Gemini Pro** through **VertexAI**, improving customer query resolution speed across product, returns, and order-tracking workflows.
- Implemented dynamic **SQL generation** with LangChain + **ChromaDB**, increasing database answer accuracy and reducing manual lookup effort for support teams.
- Designed a responsive **Streamlit UI** with secure authentication, profile handling, and conversation history, enhancing user engagement and boosting task completion rate.
- Managed a MySQL database storing users, products, and discounts, ensuring efficient data retrieval and updates for 1,000+ records.

Sign Language Recognition Using LSTM | [GitHub](#) | Tech Stack: LSTM, MediaPipe, OpenCV, TensorFlow, NumPy

- Built an **LSTM-based** gesture recognition model (**TensorFlow/Keras**) achieving **90%+ accuracy** across **10 gesture classes**, improving accessibility for speech- and hearing-impaired users.
- Extracted keypoints from video frames using **MediaPipe** and **OpenCV**, enabling real-time gesture recognition with high accuracy (over 90%) for sequential hand movement data.
- Developed a scalable video-processing backend in Python, improving system inference speed by **~30%** and ensuring stable real-time performance.
- Visualized model performance using **Matplotlib** and optimized training workflows, reducing validation loss by **~18%** through hyperparameter tuning and sequence normalization.

SKILLS

- Programming Languages:** Python, Java, C, R
- Machine Learning and AI:** Deep Learning, NLP, Computer Vision, TensorFlow, PyTorch, scikit-learn, Keras, NumPy, Pandas.
- Generative AI & LLMs:** Hugging Face Transformers, LangChain, LLaMA, Google Gemini Pro, CrewAI, RAG Pipelines, ChromaDB, LangGraph, AutoGen.
- Data Science & Analytics:** Exploratory Data Analysis (EDA), Feature Extraction, Data Cleansing, Data Visualization, Matplotlib
- Tools & Technologies:** Git, VS Code, Jupyter Notebook, Streamlit, MediaPipe
- Databases & Backend:** MySQL, FastAPI
- Cloud & DevOps:** AWS, API Integration.

EDUCATION

B. Tech in Artificial Intelligence and Machine Learning

Dec 2021–May 2025

Nalla Narasimha Reddy Education Society's Group of Institutions, Hyderabad

Intermediate (MPC)

June 2019– March 2021

SriChaitanya Junior College, Hyderabad

CERTIFICATIONS

- GenAI** (Nvidia Academy)
- Python** (HackerRank)
- AWS Cloud** (AWS Academy Graduate)
- Machine Learning** - Stanford University (Coursera)
